

BMERS Version 6.3.0 – November 2018

BMERS Setup version 6.3.0 is available for download from following link:

<https://www.dropbox.com/s/hdt5t35wgd0hew/BMERSSetup-6.3.0.zip?dl=0>

(The download file is 74MB – too big to store in our NIHRAC website at the moment).

This version of BMERS works with latest RMS Express version 1.5.18

https://downloads.winlink.org/User%20Programs/Winlink_Express_install_1-5-18-0.zip

The following issues have been fixed in this version:

Release 6.3.0

1241 - Mail file attachment size limit of 100KB is removed from internal mails.
