TOXNET®
Databases on toxicology, hazardous chemicals, environmental health, and toxic releases.
toxnet.nlm.nih.gov

Select TOXNET databases of interest to pharmacists

ChemIDPlus® Online dictionary of chemical substances cited in NLM databases and other Internet resources. Advanced version includes chemical structure, toxicity, and physical property searching.

Comparative Toxicogenomics Database (CTD™) Elucidates molecular mechanisms by which environmental chemicals affect human health.

Hazardous Substances Data Bank (HSDB®) Comprehensive, peer-reviewed toxicology and environmental data for chemicals, including specific information on drugs and supplements.

Developmental and Reproductive Toxicology (DART®) Bibliographic database with references to teratology and developmental and reproductive toxicology literature.

LactMed® (Drugs and Lactation Database) Database of prescription and nonprescription drugs, herbals, dietary supplements, and other chemicals to which breastfeeding mothers may be exposed and the effects of those agents on nursing infants and lactation.

TOXLINE® Bibliographic database of toxicological references.

AIDSinfo®
Information about U.S. Food and Drug Administration (FDA) approved and investigational HIV/AIDS related drugs.
aidsinfo.nih.gov
infosida.nih.gov [Spanish]

ClinicalTrials.gov
Searchable database providing information about ongoing clinical research studies and drugs and treatments.
clinicaltrials.gov

Disaster Information Management Research Center (DIMRC)
Online health information resources and technology for disaster preparedness, response, and recovery.
dimrc.nlm.nih.gov

LiverTox®
Comprehensive clinical, diagnostic and research information and a case registry on liver injury attributable to over 1,000 prescription and nonprescription drugs, herbals, and dietary supplements.
liver.tox.nih.gov

Drug Information Portal
Portal to current drug information from NLM and other Federal agencies. Resources cover the time drugs are in clinical trials, through their FDA approval process, and then on to the marketplace. Coverage includes drug names and their synonyms, including drugs with official generic name status such as USAN or INN (International Nonproprietary Name).
druginfo.nlm.nih.gov

DailyMed®
The official provider of FDA labeling information found in medication package inserts in a standard format for currently marketed drugs.
dailymed.nlm.nih.gov

Dietary Supplement Label Database
Collaborative project between the Office of Dietary Supplements (ODS) at NIH and NLM, containing full label contents from U.S. marketed dietary supplements and providing search features important for researchers.
dstd.nlm.nih.gov

MedlinePlus®
Provides health professionals and consumers with authoritative and up-to-date information on prescription drugs, over-the-counter drugs, herbals, and supplements.
medlineplus.gov
medlineplus.gov/spanish

Pillbox
Enables rapid identification of unknown solid-dosage medication based on physical characteristics and high quality images.
pillbox.nlm.nih.gov

PubChem®
pubchem.ncbi.nlm.nih.gov

PubMed®/MEDLINE®
More than 27 million citations from biomedical literature, life science journals, and online books.
pubmed.gov
PubMed Health
Online reviews of clinical effectiveness research, with reviews, summaries and full technical reports for more than 700 drugs.
ncbi.nlm.nih.gov/pubmedhealth

RxNorm
A normalized drug naming system that supports computerized, semantic interoperation between drug terminologies and pharmacy knowledge base systems.
.nlm.nih.gov/research/umls/rxnorm/index.html

Enviro-Health Links-Dietary Supplements
Selected links to information on chemicals, drugs, and special populations.

Dietary Supplements Links to Internet resources on various aspects of dietary supplements.
sis.nlm.nih.gov/enviro/dietarysupplements.html

Developing and Using Medicines for Children
Links to information about pediatric drug development clinical trials and existing laws and regulations.
sis.nlm.nih.gov/enviro/childrensdrtugs.html

FDA Substance Registration System (SRS)
Search for unique ingredient identifiers (UNIIs) for substances in drugs, biologics, devices, and foods.
fda.sis.nlm.nih.gov/srs/srs.jsp
